

LD8800

Water Pipe Leak Detector

EN

PROFESSIONAL

LD8800 PLUS Water Pipe Leak Locator Detector (ACOUSTIC)
(The vibration bar graph and Magnetic Probe)

You can work with headphones or can work with the led lamp indicator too !!!
Magnetic probe ; water valves, water meters used for testing and leakage detection

Magnetic probe facilitates adhesion to metal objects and detection of leaks

LD8800 Plus Leak locator detects underground leaks by sensing their acoustic vibrations with a special microphone, by amplifying them electronically, and by making the leak-sound clearly audible on headphones; at the same time, the deflection of the panel meter indicates the relative strength of the leak- sound. Using LD8800 Plus Leak Locator, therefore, the operator simply traces the leak-sound to the point where its intensity is greatest; this point will be located directly above the subsurface leak. The LD8800 Plus can detect successful up to 15 "deep pipeline leaks. The detector has a special design surface probe.

LD8800 Plus Leak Locator detects underground leaks by sensing their acoustic vibrations with a special microphone, by amplifying them electronically, and by making the leak-sound clearly audible on headphones; at the same time, the deflection of the panel meter indicates the relative strength of the leak- sound. Using the LD8800 Plus Leak Locator, therefore, the operator simply traces the leak-sound to the point where its intensity is greatest; this point will be located directly above the subsurface leak.

Even the smallest leaks can be located using this device in just a few minutes thanks to the ability of the system to listen inside of walls, through floors and even inside of dense materials like tile and marble.

LD8800 carrying case is constructed from ABS with a foam-lined interior that is custom die-cut to firmly secure all of the unit's components and provide maximum protection for the equipment.

Also;

- Can use detect pipe leak under concrete
- Rechargeable battery can use 150-300 hour
- Vibration led display screen
- High quality carrying case
- Neckline included
- Good Value

IN BOX :

- 1 x Surface microphone •
- 1 x LD8800 •
- 1 x HQeadphone •
- 1 x Carrying Case •
- 1 x Magnetic Probe
- 1 x Charging Device •
- 1 x Manual EN

Dimension : 16 x 12 x 8 inc Weight : 8 LB - 4.3 KG

Made in China
